**KRAYN WIND LLC’S STATEMENT OF ISSUES AND
DESIGNATION OF ITEMS TO BE INCLUDED IN THE RECORD
ON APPEAL FROM THE PRELIMINARY INJUNCTION ORDER**

Krayn Wind LLC (“*Krayn*” or “*Appellant*”) hereby provides, pursuant to Rule 8009 of the Federal Rules of Bankruptcy Procedure the following statement of issues and designation of the items to be included in the record in connection with Appellant’s appeal from the

Preliminary Injunction Against the Federal Energy Regulatory Commission [Adv. Proc. Docket No. 114] (the “**Preliminary Injunction**”) and the accompanying *Memorandum Decision Supporting Order Granting Preliminary Injunction* [Docket No. 125] (the “**Memorandum**,” and together with the Preliminary Injunction, the “**Preliminary Injunction Order**”) entered on May 11 and 18, 2018, respectively, by the United States Bankruptcy Court for the Northern District of Ohio (the “**Bankruptcy Court**”).

STATEMENT OF ISSUES ON APPEAL

1. Does FERC’s public interest review of a FERC-jurisdictional wholesale power agreement constitute “an action or proceeding by a governmental unit . . . to enforce such governmental unit’s . . . regulatory power,” 11 U.S.C. § 362(b)(4), such that the FERC review process is excepted from the Bankruptcy Code’s automatic stay provision, 11 U.S.C. § 362(a)?

2. Does either 11 U.S.C. § 362(a) or § 105(a) give a bankruptcy court the power to enjoin FERC from conducting its statutorily mandated public interest review of the rejection of FERC-regulated wholesale power agreements?

3. Does 11 U.S.C. § 365(a)—the Bankruptcy Code provision governing the rejection of executory contracts—authorize Debtors to reject a FERC-regulated wholesale power agreement absent FERC review and approval of Debtors’ unilateral decision to modify the terms of that agreement?

4. Does FERC have exclusive jurisdiction over the public interest review of modifications to FERC-regulated power purchase agreements?

5. If the Bankruptcy Court has jurisdiction over the rejection of FERC-regulated wholesale power agreements, to what extent and under what standard are Debtors authorized to reject the wholesale power agreements at issue without seeking approval from FERC?
